experience_

Best Buy Canada
Digital Designer II | August 2018 - Present

- Documented and delivered **style guides** that **capture** the working components of delivered systems.

- Planned and executed website design stages from concept to hand-off, followed by continuous **improvement cycles.**

- **Collaborated** with other UI/UX team members on identifying and developing **design patterns**.

UBC Faculty of Land and Food Systems
UX / UI Designer | 2018

- Designed **high-level** workflows and **wireframes**.

- Created functional **prototypes** of the workflows and designs for internal evaluation and **user testing**.

- Collaborated with cross-functional **stakeholders** to ensure the design can be **efficiently** implemented.

PacWest Canopy
UX / UI Designer | 2018

- Worked with product managers, developers, designers and testers to inform and influence solutions that will **delight** and **benefit users.**

- Assisted development teams with creating **user personas** and **customer profiles** to better understand customers and **customize solutions** where possible.

- Designed workflows that work on **multiple devices** and platforms, including **mobile**.
